MEMORANDUM FOR Technician Airmen of the Missouri Air National Guard

SUBJECT: General Notice – Military Technician Realignment to Active Guard Reserve (AGR)

1. The Director of the Air National Guard (DANG) has announced realignment of 3,183 technician positions to AGR. This realignment is part of an effort to increase military readiness, in compliance with the National Defense Strategy, and may continue in future fiscal years. For fiscal year 2019 this realignment will affect 56 technician positions in the MOANG.

2. We are exploring all available options to ensure that you remain a member of the Missouri Air National Guard serving in your preferred status. All actions will be in accordance with Air National Guard Instruction 36-101 and Technician Personnel Regulation 351. It is my intention that every Airman is given an opportunity to continue serving. To this end, the following procedures should be followed:

- (a) Attend a Human Resources led town hall informational brief and review provided materials;
- (b) Realignment from Technician to AGR is strictly voluntary;
- (c) By exception, non-competitive realignment may occur with HRO approval;
- (d) AGR positions may be moved to other workcenters to meet mission needs.

3. Point of contact for this General Notice is William Miller, Deputy Director of Human Resources, 573-638-9600.

STEPHEN L. DANNER
Major General, MONG
The Adjutant General
